FROM STEVE YAGGY

ATTENTION: Steve Yaggy Specialized Trucking Team Members

SLOW DOWN - SLOW DOWN - SLOW DOWN

We need your HELP. Our FMCSA Trucking Safety scores are way up.
This needs our IMMEDIATE attention!

A High FMCSA score damages our credibility/accountability and puts us at risk of losing loads. Because of these high scores along with accidents we have had, our insurance rates have gone up.

We need everyone to PLEASE help. We need to go above and beyond the normal. We need everyone to DRIVE SAFE, watch your SPEED, and ALWAYS be inspecting your truck and trailer for items that an inspector will stop you for. Like lights not working, tires, brakes, seat belts, fire extinguisher not secured to the floor, safety triangles not in the cab, cracked windows, along with many other items.

Over 90% of our high scores have come from speeding tickets, accidents, rolling through stop lights, wrong lane, following to close, not using seat belts, and using a handheld phone. (OH, did I mention Accidents and Speeding.) Once the officer has you stopped they do an inspection and nail us on mechanical issues that could have been caught BEFORE leaving for the day.

Having high scores will cause Scale Agents to pull you in for inspections. It gives you less of a chance of getting out of a ticket, and it really is a Black Eye for the company. I know you all work very hard and do a Great Job of being a Professional Truck Driver. We just need everyone to help get this under control. PLEASE follow the rules of the road. Write up your pre and post inspections for the trucks and trailers. Yes, the shop will work extra hard on getting those items repaired in a timely manner also.

Thank you ALL for your hard work, and for being safe. Remember this simple rule, "Coming Home Safe Should Be On Everyone's Mind." PLEASE SLOW DOWN!!

Have a Blessed Day

Steve Yaggy
